FIS SKI JUMPING WORLD CUP PRESENTED BY VISSMANN

1 Club 239  
2 CLUB PLANICA

# 1 Club239 2 CLUBPLANICA

Planica is one of the most observed and best organized winter-sporting events in Europe and offers the opportunity for relaxation with family, friends and colleagues. Events in Planica also provide unique opportunities for strengthening and closing new business ties.

The event, which has already long ago outgrown the scope of mediocrity and on the wings of development and success of Slovenian national ski jumping team also turned into Slovenian biggest sports festival.

Each year, the Planica feast turns into an event where also the representatives of the economy, politics and show business gather together.

We need to adapt our services and products to these events.

Over the years, we have upgraded the existing possibilities for the Planica experience in a different way and we are building new ways of socializing and experiencing Planica on a very high level.

In which club we shall meet, is your decision. Our mission is that you leave Planica satisfied and return to us again and again.

We shall not be held responsible for the length of the ski-flying.

## 22 - 25 MARCH

# Club 239

The last world record in Planica was set in March 2005. Bjørn Einar Romøren flew 239 m.

The Planica ski-flying hill record today stands at 251.5 m (Kamil Stoch), but when the new world record will fall in Planica, our Club 239 will get a new name.

Nevertheless, the Club 239 is a place where not only a place on a **special tribune** is provided for you, but also an **excellent cuisine** and an **ambient** where you can always find a **proper interlocutor**.

## THE CLUB 239 BOASTS ABOUT

- A STAND AT THE SKI-FLYING HILL OUT-RUN,
- AN EXCELLENT CUISINE,
- A QUIET AMBIENT IN THE BASEMENT OF THE NORDIC CENTRE CENTRAL FACILITY,
- A PERSONALISATION POSSIBILITY OF THE SELECTED PLACE.

## Price

120 EUR / person / day

FIS SKI JUMPING WORLD CUP PRESENTED BY VISSMANN

People have always found a special interest in ski-flying. Since ancient times, they wanted to fly. While inventions and excesses of flying with aircrafts and other air vessels took turns throughout the history, a man also started to fly on skis. Excitement, euphoria and sincere joy at every single landing of ski jumpers prove that it is an unique art that can not be compared to any other art.
