FIS SKI JUMPING WORLD CUP PRESENTED BY VISSMANN

*Crystal Globe
Lounge*

Crystal Globe Lounge

Planica is one of the most observed and best organized winter-sporting events in Europe and offers the opportunity for relaxation with family, friends and colleagues. Events in Planica also provide unique opportunities for strengthening and closing new business ties.

The event, which has already long ago outgrown the scope of mediocrity and on the wings of development and success of Slovenian national ski jumping team also turned into Slovenian biggest sports festival.

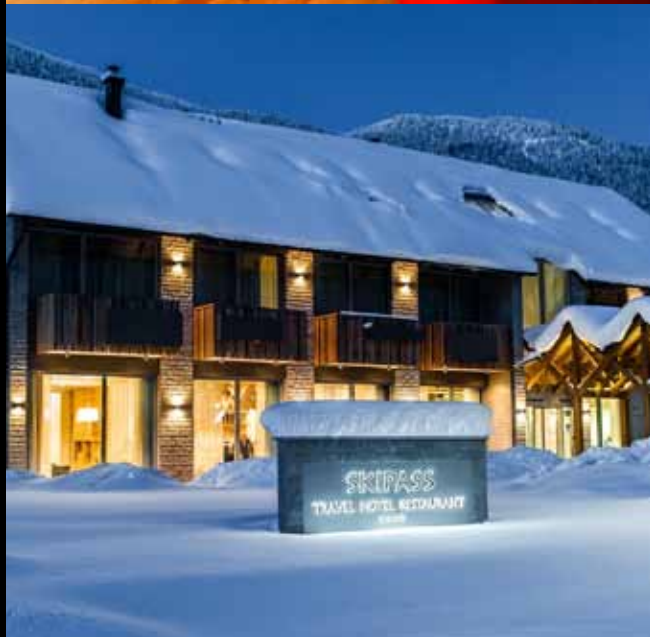

Each year, the Planica feast turns into an event where also the representatives of the economy, politics and show business gather together.

We need to adapt our services and products to these events.

Over the years, we have upgraded the existing possibilities for the Planica experience in a different way and we are building new ways of socializing and experiencing Planica on a very high level.

In which club we shall meet, is your decision. Our mission is that you leave Planica satisfied and return to us again and again.

We shall not be held responsible for the length of the ski-flying.

22 - 25 MARCH

Crystal Globe Lounge

The Crystal Globe Lounge is the result of the demand for the highest level of hospitality at our sports event. We are honoured that the World Cup finals in Planica can meet all the expectations of the most demanding visitors of this event.

In the new central facility in the Nordic Centre, we can thus host great names from the world of sports, economy and politics.

FIS SKI JUMPING WORLD CUP PRESENTED BY VISSMANN

People have always found a special interest in ski-flying. Since ancient times, they wanted to fly.

While inventions and excesses of flying with aircrafts and other air vessels took turns throughout the history, a man also started to fly on skis. Excitement, euphoria and sincere joy at every single landing of ski jumpers prove that it is an unique art that can not be compared to any other art.
